

WHAT

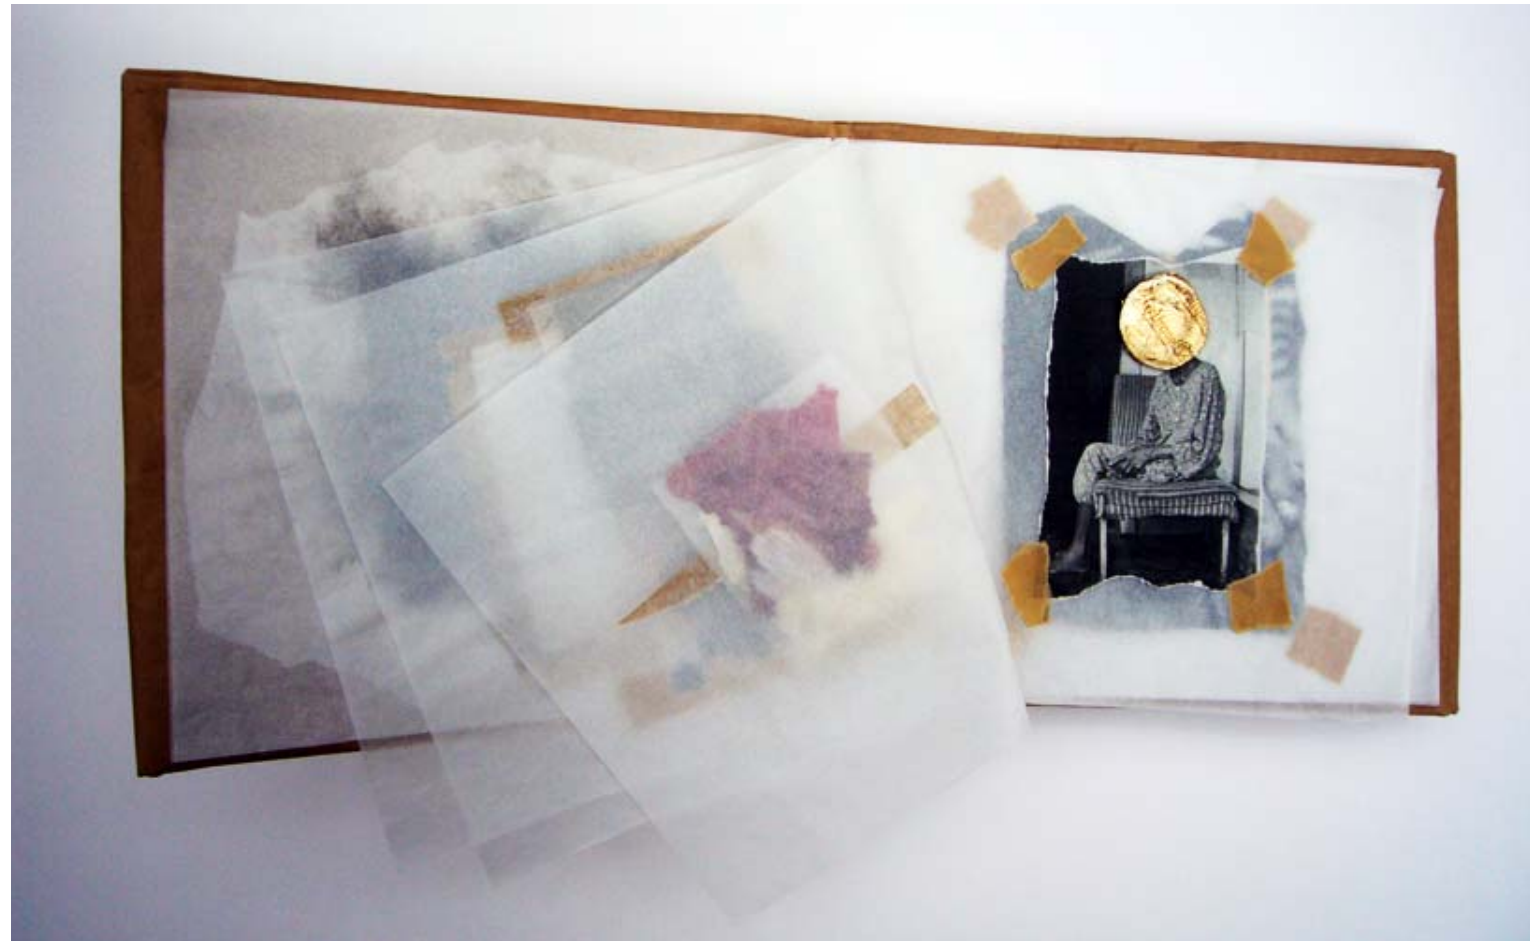

An invitation in the form of a hand made inspirational book.

HOW

Beneath the thickness of this cover made from industrial flour bags, are inspirational images and items, such as onion skins and old bottle caps. These are mounted by hand and give an old world quality.

WHY

We really wanted to create highly unusual items so that the company stood out amongst the many things that their clients receive. We focused on the emotional aspects and are constantly pushing the evolution of non-traditional materials.
