

WHAT

The design and creation of the new showroom for PH.

HOW

A simple cubed space with bands of glass and rich wood appear to be suspended in the air as all of its finishings are unseen. We will provide all of the furnishings from our "Wood and Block" furniture series.

WHY

While maintaining a very clean, modern look, this glass cube showroom is situated in the middle of the production warehouse. While being enclosed in a quite, comfortable space, the client can observe all of the fast pace workings of the warehouse.
